

PLC Lighting 1-Light GU24 18W Silver
Non Dimmable Exterior Light Matte Opal
Acrylic Lens JEDI Collection

Product Description:

This rugged, hard wearing exterior light from the Jedi Collection has modern detailing and is perfectly suited to the porch or any other garden areas that require light. With simple classic lines the light is timeless and will serve you well for many years to come without becoming outdated in looks or style. Measuring 9.5" high, 9.5" wide with an extension of 4" the fitting is fully A.D.A compliant and will enhance any outdoor space effortlessly. The fitting runs from a 120 volt power source and requires one 18w fluorescent energy saving light bulb that is included and ensures that the correct light is emitted to suit your occasion or requirements, whilst also saving you money on your energy bills too. The light is expertly finished in expertly applied silver with matte opal acrylic lens and you would be hard pressed to find something better or more suited to purpose.
